About Perfuze

Perfuzé is a growth stage medical device company, based in Galway, dedicated to improving clinical outcomes and the quality of life for stroke patients. Perfuzé is developing innovative catheter-based technology to extract blood clots from the brain following an Acute Ischemic Stroke. We are located in the IDA Business Park in Dangan, Galway. Millipede technology has been recognised by the FDA through the granting of a Breakthrough Device Designation and was awarded CE Mark for its first product in 2021. At Perfuzé, we push the limits of what medical technology can do to help restore health and extend life. Our mission is to halve the number of patients who suffer disability post stroke treatment. We want to accelerate and advance our ability to create significant innovations, but we will only succeed with the right people on our team.

Our Culture

- An inclusive work environment, where all the employees are valued, supported, and encouraged
- All employees have a seat at the table and have influence
- A collaborative teamwork environment where learning is constant, and performance is rewarded
- The opportunity to be at the forefront of a technology that can positively impact the treatment of one of the world's most devastating diseases

Product Builder Role

Working with the senior management team, the primary responsibility of the Director of Operations is to define, lead and execute the manufacturing, scaleup, supply and distribution strategy that supports Perfuzé business objectives. This role requires a high level of innovative thought and strategic planning capability. Although this role is based at our Dangan facility some hybrid working may be supported in accordance with company policy.

How You'll Contribute

As a Product Builder you will contribute to the development of our core technology by:

- Building and prototyping new device concepts.
- Building of product for verification and validation testing, and clinical use.
- Performing product inspection and measurement.
- Performing incoming inspection of device components and materials.
- Supporting development and improvement of manufacturing processes for production.
- Stocktaking and ordering of lab and manufacturing components and supplies.
- Support training of new product builders as required.

Must Have

Perfuzé Ltd., Unit 6, Galway Business Park, Dangan, Galway

- A minimum of 2 years' experience in medical device and catheter building and processing.
- Good verbal and written communication skills.
- Must enjoy contributing to and participating in a dynamic team environment.
- A hands-on mindset.
- Proficiency in Microsoft Word and Microsoft Excel.

If interested, please submit your CV and a letter outlining why you are the right person for the role via Indeed at ie.indeed.com/jobs?q=perfuze&l=Galway.
